## Information on Tax Withholding:

Withdrawals from an IRA (other than direct transfers to another IRA custodian or withdrawals of nondeductible contribution amounts) are subject to federal income tax withholding, unless you elect no withholding when completing your withdrawal authorization form. Unless you elect no withholding, 10% of each distribution will be withheld as federal income taxes. In addition, there may be withholding of state income taxes depending on your state of residence. If you elect no withholding, your election will remain in effect until revoked. You may revoke your no withholding election in writing at any time. Please note that, if you elect no withholding or have an insufficient amount withheld from your distributions, you may have to pay estimated tax. Insufficient payments of estimated tax may result in penalties.

If you have a Massachusetts address and have federal withholding, we are required to withhold Massachusetts's income taxes also. Complete Massachusetts Form M-4P so that your Massachusetts income taxes may be calculated correctly. Depending on your number of exemptions and the amount of your IRA distributions, there may be no actual withholding. If your legal residence is not Massachusetts (even though you have a Massachusetts address), check the box in item 5 of the Form-4P to avoid Massachusetts income tax withholding.

Please contact Northeast Investors Trust if you wish to have us send you federal form W-4P or Massachusetts form M-4P.
